

# NEW Keying System

with Australian Patent Protected Features

**Lockwood GEN6TX<sup>®</sup>**

- Patent protected features on barrels and keys – until 2036 in Australia
- Design registration on keys – until 2032 in Australia and New Zealand

Launched in 2004, the Lockwood Generation 6 restricted keying system has led the market with superior key control and cost efficiency using a standard inline cylinder. GEN6TX<sup>®</sup> continues this legacy, enhancing physical security and introducing renewed patent and design protections for keys and barrels.

The Lockwood brand is known throughout Australia for its commitment to local manufacturing and high quality products and GEN6TX<sup>®</sup> is no exception. All barrels and keys are proudly manufactured in ASSA ABLOY Opening Solution's Oakleigh facility to the highest degree of precision and quality.
