

# LOCKWOOD SOLID BRASS COMBINATION PADLOCK SETTING INSTRUCTIONS

## **Resetting Combination**

This padlock is initially set to open at "000" for three wheel locks and "0000" for four wheel locks.

## **To Change Combination**

1. Set opening combination.
2. Pull out and rotate shackle 180°, so that the shackle aligns with the slot.
3. Depress the shackle into the slot, hold down, set your new combination, release the shackle.
4. Check new combination is set before use.
